**Ex-prefix**<sup>1</sup>, of Latin origin.

I. repr. *L. ex-*, the prep. *ex* (see *prec.*) in combination.

1. In Latin the form *ex-* appears before vowels and *h*; also before *c*, *p* (exc. in *ēpōlāre*, *ēpōlūtis*), *q*, *s*, *t*; before *f* it becomes *ef-* (in inscriptions *ex-*: cf. *Gr. ἐκ*); before other consonants (exc. in *exlex*) it becomes *ē-*. All these various forms are represented in many Eng. derivatives; e.g. *ebullient*, *effervesce*, *extend*. An *s* following the prefix was in mediæval spelling commonly omitted, and this practice has been adopted in English orthography, as in *exert*, *extinct*; in some scientific terms, however, the *s* has been retained in order to exhibit the composition more clearly, as in *exsert* to protrude (etymologically = *exert*), *exsanguineous*, *exsiccate*. The euphonic rules affecting the prefix in class. Lat. did not prevail in vulgar Lat., the universal form being *ex-*, represented in Romanic by *es-* (see *Es-*). In OF. and in ME., words with the prefix *ex-* were occasionally written with *ex-*, after the analogy of words adopted from Latin; a few of these refashioned forms remain in mod. Eng., as *exchange*, *expound*.

When it has primary or secondary stress, the prefix is pronounced (eks); in unstressed position this remains before a (written) cons., though in southern usage (eks) is commonly substituted; before a stressed vowel the pronunciation is usually (egz), becoming (egz) in southern speech; this rule, however, has many exceptions, chiefly in rare words and in words affected by the analogy of cognates differently accented.

2. The Lat. compounds of *ex-* chiefly belong to the following classes, all which are represented by English derivatives. 1. Verbs formed from other verbs; in some of these *ex-* has its primary force of 'out', 'forth', as in *excludere*, *exire* (whence Eng. *exclude*, *exit*); in some it means 'upward', as in *extollere* (whence Eng. *extol*); in others it has the sense 'thoroughly', as in *excruciare* (whence Eng. *excruciate*). 2. Verbs formed from adjs., with general sense 'to bring into a certain state', as *exacerbare*, *exasperare* (whence Eng. *exacerbate*, *exasperate*). 3. Verbs formed from sbs.; some of these are really formed on phrases in which *ex* governs the sb., and have the senses 'to remove, expel, or relieve from (that which is denoted by the sb.)', as *exclūdere*, *expatriare*, *exonerare* (whence Eng. *excuse*, *expatriate*, *exonerate*); others have the sense 'to deprive of (what is denoted by the sb.)', as *excoriare*, *excoriicare* (whence Eng. *excoriate*, *excoriicate*). 4. Adjs. formed from sbs., with the general sense 'deprived of something', as *exsanguis* bloodless (whence Eng. *exsanguineous*); in imitation of these, many terms of mod. science have been formed in which *ex-* has the non-Latin sense 'destitute of', as *exalbuminous*, *exstipulate*; the form *e-* (see *E-pref.* 3) has however more frequently been employed, even where Lat. euphony would require *ex-*, as in *ecaduate*.

II. *Ex-* (with hyphen) prefixed to Eng. words.

3. Prefixed to titles of office or dignity, to form designations for persons who have formerly held the position in question. In more restricted sense these compounds denote the immediate predecessor (when still living) of the present holder of the position. After the analogy of these words, *ex-* is prefixed indiscriminately, with the sense expressed by 'former', 'sometime', 'quondam', to sbs. designating persons with respect to their calling, station, character, or the like.

[On the analogy of forms of expression like *ex exsule consul*, (that has become) a consul from an exile, the phrases *ex consule*, *ex magistro equitum*, etc. were in the Latin of the empire added as titles to the names of men who had filled the offices of consul, master of the horse, etc. At a later period these phrases gave rise to the compounds *ex-consul*, *ex-magister*, in the same manner as the compounds *pro-consul*, *pro-prætor* had been developed from the older *pro-consule*, *pro-prætor*. In med. Lat. this usage was greatly extended, such forms as *ex-Augustus* ('ex-emperor') being of frequent occurrence. Some words of this formation (e.g. *ex-professor*) passed in adapted forms into It. and Fr., and on the analogy of these *ex-* was prefixed to Romanic words. The Eng. use, imitated from Fr., seems to have first become common towards the end of the 18th c.]

This expression has survived, though the practice which it denotes no longer exists; hence the preliminary investigation before justices of the peace or police-magistrates is still called the *examination* of the prisoner, so that the word in this connexion has reverted to the obsolete sense 2 *b.*

The etymology of the *L.* word is disputed; some, relying on the variant spelling *exantllare* (which seems to be the better attested of the two), consider it to be f. *ex-* out + *antllus* servant, so that the primary sense would be 'to draw (water, etc.) as a servant'. Others regard the word as ad. *Gr. ἔανθαι* to pump out, empty (liquids), f. ἔ- out + ἀνθῆναι to hold of a ship. In any case the fig. use of *exantllare* or *exantllare* for 'to endure to the uttermost' must have been suggested by the precisely similar use of the *Gr.* word.]

**Excelsior** (ek'selsior). [L., compar. deg. of *excelsus* high: see EXCELSE.]

|| 1. *a.* The Latin motto ('higher') on the seal of the State of New York (adopted by the senate of that state 16 Mar. 1778), the accompanying device being a rising sun. Hence *attrib.* in *The Excelsior State*, New York. *b.* Used by Longfellow (quasi-*int.* as an expression of incessant aspiration after higher attainment) as the refrain of a popular poem; hence employed with similar sense by many later writers.

The adverbial meaning ('= upwards') commonly given to the motto cannot be justified by L. grammar. According to S. Longfellow *Life H.W. Longfellow* I. 384, the poet was at first unaware of the solecism in the motto as thus interpreted, and when it was pointed out to him suggested that the word might be taken to stand for *Scopus meus excelsior est*, 'My goal is higher'. It is not clear whether the original use on the seal is a blunder, or whether it was meant as an abbreviation for some grammatically admissible phrase.

B. *prep.*

1. In ME., in the construction A. 3, the pple., like its synonym *out-taken*, might precede the sb. When this collocation of a pple. ceased to be idiomatic, *except* became a *prep.*, with the sense: Excepting, with the exception of, save, but.

Owing to the rarity of instances in which an inflected pron. takes the place of a sb., it is impossible to say definitely how soon the change in the grammatical character of the word took place, but it had prob. begun before 16th c. Cf. Fr. *excepté* and *hormis*, which are now treated as preps. Possibly the word was sometimes taken as the imperative of EXCEPT v.; cf. *excepte* in the Eton Latin Syntax.

II. *The King's Exchequer.*

2. Under the Norman and Angevin kings of England: An office or department of state man-

aged by the Treasurer, the Justiciary and the other judges of the King's Court, and certain Barons appointed by the King. Its functions combined the collection and administration of the royal revenues with the judicial determination of all causes relating to revenue. In the subsequent development of this institution, it was gradually divided into two distinct branches, the one being charged with judicial, the other with administrative functions: see 3, 4.

The name originally referred to the table covered with a cloth divided into squares, on which the accounts of the revenue were kept by means of counters. It is disputed whether the application of the word to the treasury and the tribunal connected with it originated in Normandy, or whether it was imported into Normandy from England. After Normandy became part of France, the supreme court of law in that province continued to bear the name of *eschiquier* until the reign of Francis I, when this name was superseded by that of *parlement*.

b. *Chancellor of the Exchequer*: an officer originally appointed in the reign of Henry III. as assistant to the treasurer; now the responsible finance minister of the United Kingdom: see *CHANCELLOR* 3.

c. *Eschequer of the Jews* (*L. scaccarium Judæorum*): in the thirteenth century, a department of the Exchequer which had charge of the collection of the revenues exacted from the Jews. (See C. Gross *Eschequer of the Jews in Papers read at the Anglo-Jewish Exhibition*, 1887.)

3. (More fully *Court of Exchequer*, *Exchequer of Pleas*.) A court of law, historically representing the Anglo-Norman exchequer in its judicial capacity. By the Judicature Act of 1873 it was converted into 'The Exchequer Division' of the High Court of Justice, and by Order in Council in 1881 this was merged in the Queen's Bench Division.

The jurisdiction of the court was theoretically confined to matters of revenue, but in practice was gradually extended to all kinds of cases (except 'real actions') by means of the legal fiction that the wrong suffered by the plaintiff had rendered him unable to pay his debts to the king. In addition to its jurisdiction at common law, the court had a jurisdiction in equity, abolished in 1841. In its latest form it consisted of the Chief Baron and five judges, called the Barons of the Exchequer; the Chancellor of the Exchequer was in theory a member of it, and was entitled to a voice in its decisions when it sat in equity.

4. The office or department of the public service, which is charged with the receipt and custody of the moneys collected by the several departments of revenue.

In early use not distinguished from *TREASURY*; but the department of state called the Treasury has not since the 15th century exercised directly the function etymologically indicated by its name. The office charged with the custody of the revenues was in theory a branch of the Court of Exchequer (see 3), and was sometimes called the *Lower Exchequer*, the *Eschequer of Receipt*, or *Receipt of Exchequer*, to distinguish it from the judicial branch (*Exchequer of Pleas*). By the Exchequer and Audit Act 1866, the offices of Comptroller of the Exchequer and Auditor General, and the departments over which they presided, were united.

L. *accisia* is mentioned by Du Cange (who gives no quot.) as occurring in imperial documents as a variant of *assisa* (see ASSIZE); this may be a latinization of the MDu. word. In Du. the two words *acjijis* 'excise' and *assijis* 'assize' have been to a great extent confused, having both the meaning 'tax'; the Du. etymologists regard the former as a corruption of the latter, and the form *accijis* as a further corruption due to confusion with *cijis*, *Lat. census*. By Lat. writers in the Low Countries (16-17th c.) the word is often rendered by *excensum*. The notion of derivation from L. *excisum* 'something cut out' (cf. EXCISE 2, 5) may have been the cause of the substitution of *ex-* for *ac-* in the MDu. form.]

2. *spec.* 'A duty charged on home goods, either in the process of their manufacture or before their sale to the home consumers' (*Encycl. Brit.*). In England this kind of taxation was first adopted in 1643, in acknowledged imitation of the example of Holland. It long continued to be highly unpopular: see Johnson's definition below.

The taxes levied under the name of Excise by the Ordinance of 1643 included certain duties imposed, in addition to the customs, on various foreign products; it was not until the present century that the actual use of the word became strictly conformed to the preceding definition.

Etymologically, this is appropriate only to the case of a low-pressure engine, in which the steam is literally 'exhausted' from the cylinder by opening communication with the condenser; but when high-pressure engines were introduced, the word continued to be used as a synonym of *Eduction*, which it has almost superseded.

7. *Steam-engine.* The increase in bulk of the steam which takes place in a partially filled cylinder after communication with the boiler is cut off.

The improvement introduced by Watt's patent of 1782 consisted in the economizing of steam by allowing the piston to be propelled, during the latter portion of its excursion, by the 'expansion' of the steam first introduced. An engine in which this is done is said to work 'by expansion'. A double (or triple) expansion engine is one in which the steam passes from one cylinder into another, so that the expansive force is used twice (or thrice).

|| **Extra** (e'kstrā), *prep.* *rare.* [L. *extrā* (earlier *extrād*) outside (*adv.* and *prep.*), contracted form of *exterā*(d), abl. fem. of *exter* (see. EXTERIOR) in phrase *extrā parte* on the outer side.] Outside, externally to.

1852 W. GROVE in *Phil. Trans.* CXLI. 87 There was some effect exhibited *extra* the voltaic circuit.

**Extra-** (e'kstrā), *prefix.* The L. *adv.* and *prep.* *extrā* (see *prec.*) does not, strictly speaking, occur in composition during the classical period, though post-classically it formed a few vbs. like *extrāclūdēre* to shut out, *extrāvagārī* to wander outside (whence *extravagant*). Classical L. had however the adj. *extraordinārius* EXTRAORDINARY, f. phrase *extrā ordinem* outside the regular order; and late L. also *extrāmūndānus* EXTRAMUNDANE, f. phrase *extrā mundum*, *extrāmūnānus* (cf. EXTRAMURAL), f. *extrā mūrum* (or *mūros*), *extrānātūrālīs* 'extranatural', f. *extrā nātūrām*. Many similar adjs. were formed in med.L. on phrases in which *extrā* is a prep. and some of these are adopted in Eng., as *extra-provincial*. As the suffix employed in such formations was nearly always identical with that used to form an adj. from the sb. governed by *extra*, the words have the appearance of being f. *extra* + adj. (the actual formation, on *extra* prep. + sb. + suffix, being obscured); thus *extraordinary* is felt as meaning 'outside of what is ordinary'. In recent times an enormous number of adjs. of this type have been formed. The most important compounds of *extra-*, and those requiring etymological explanation, are given in their alphabetical place; of the remainder only a selection can be given in the following lists, many none-words of obvious meaning being omitted.

1. Adjs. with general sense 'situated outside something' (e.g. in Anat. a specified organ or member), 'lying outside the province or scope of' (a specified branch of science, department of speculation or practice).
